2014 Harpur's Ferry EMS Training Conference

Additional Sponsors:

Harpur's Ferry EMS Training Conference

Harpur's Ferry SVAS and its co-sponsors are proud to present the Harpur's Ferry EMS Training Conference. Our goal for this event is to provide our attendees with a fun and educational opportunity with lectures by engaging, dynamic healthcare professionals. Our hope is that all attendees of this event will learn something that he or she can apply to everyday life.

Presentation Topics

Orthopedic Considerations for the EMS Provider

Dr. Adam Bitterman, DO
North Shore/Long Island Jewish
Health System, Plainview Hospital
Plainview, N.Y.

This presentation will provide the attendee with the fundamental knowledge base to handle musculoskeletal injuries ranging from long bone fractures to orthopedic emergencies. Whether the injury is related to sports or associated with polytrauma, this lecture will address key points of the physical examination and splinting techniques giving providers newfound confidence when handling orthopedic related EMS calls.

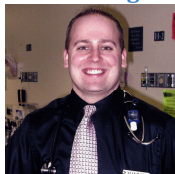

Neurological Assessment and Neurological Emergencies

William Bodeker, MS, CCRN, CEN,
EMT-P, FNP-BC
Epilepsy Program Coordinator
North Shore/Long Island Jewish
Health System, Lenox Hospital,
New York, NY

This presentation will provide the attendee with a review of the anatomy of the brain, as well as how to properly assess patients with suspected neurological deficits in a prehospital environment. In addition, this presentation will cover many of the neurological emergencies seen by the EMS providers, including strokes, head trauma, and seizures.

Burn Management for Prehospital Care Providers

Jeff Midgely, PA-C
Associate Director of Allied
Health Professionals at EOS
Medical Group
Fishkill, NY

This presentation will provide the attendee with an overview on the pathophysiology of burns, as well as understanding proper assessment of burns through the Rule of 9's. Additionally, the presentation will review prehospital treatment of burns, including fluid resuscitation and other considerations in the treatment of burns.

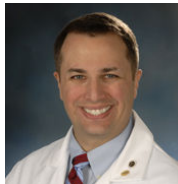

Emerging Drugs of Abuse

T. Michele Caliva, RN, BS CSPI
Administrative Director, Upstate
New York Poison Center
Syracuse, NY

This presentation will provide the attendee with an increased awareness of drug abuse trends as well as treatment options. During the presentation, the attendee will gain knowledge of the clinical manifestations of various drugs and their effects on the body. This will focus specifically on the nervous and cardiovascular systems, giving providers newfound confidence when handling substance abuse-related EMS calls.

From A to C: En Route Aeromedical Critical Care for Trauma Patients

Samuel M Galvagno Jr. D.O., Ph.D
Assistant Professor, Divisions of
Trauma Anesthesiology and Adult
Critical Care Medicine
R Adams Cowley Shock Trauma
Center
Baltimore, MD

This presentation will provide the attendee with an overview of the capabilities, cost, and operational considerations for modern helicopter services systems. Specifically, this lecture will explain and discuss anesthetic and resuscitative techniques employed in the aeromedical environment.

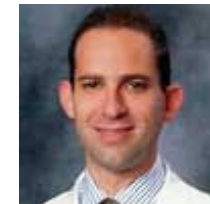

Pediatric Emergencies for Prehospital Care Providers

Dawn E. Williamson, MD, FACEP,
FACP, EMT-P
City MD
Department Surgeon
Long Beach Fire Department
Long Beach, NY

This presentation will provide the attendee with an overview of assessment and treatment of the pediatric population in the prehospital field. Special attention will be focused on the anatomical differences between pediatrics and adults, common pediatric emergencies, and identifying critical situations in the pediatric population.

Care and Treatment of Penetrating Trauma

Adam D. Fox, DPM, DO, FACS
Assistant Professor of Surgery
Division of Trauma and Surgical
Critical Care
Rutgers University-New Jersey
Medical School
Newark, NJ

This presentation will provide the attendee with the treatment of penetrating injuries. Penetrating trauma has been seen with increasing frequency throughout this country regardless of location. Although the circumstances surrounding the event may vary, the approach by EMS and health care providers needs to be systematic and thorough. This lecture will introduce the audience to the epidemiology, injury types, evaluation and treatment of penetrating trauma.

Patient Advocacy

Brandon K. Smith, A.A.S.,
NREMT-P, CIC
EMS Coordinator, Rockland
Paramedic Services
Spring Valley, NY

This presentation will provide the attendee with information on how and why we treat patients with dignity and respect, beyond the textbooks and classroom setting. At the conclusion of this lesson, the learner will be able to recognize the fact that it's not "their" emergency, learn different styles and techniques when treating patients, and learn the importance of image, perception and impressions.

2014 Conference Registration

Please complete the registration form below
and return with payment for checks only
(please print)

Name		
Title/Position		
Organization Affiliation
